kidzLife^{video} childhood moments, video memories

Turn your child's unique moments into extraordinary video memories to share

Introducing *kidzLife* films – unique 'diaries' for children of all ages – from infants to teenagers (if they think it's cool enough!). Each film is captured on broadcast quality video cameras and edited with titles and music to reflect your child's personality.

A day in the life of your child can feature anything from playing in the park to shopping for new clothes. We can even film your child going to 'big school' for the first time.

Choose a theme and a kidzLife package

A *kidzLife* film is based on a theme chosen by you and your child. It can be anything from a jungle or dolls theme to a sporting or dancing theme.

A typical *kidzLife* video features an interview with your child... footage of them at play... a special activity like a trip to the park... a selection of your favourite photographs... and maybe even a few highlights from your own home videos.

All the action is set to a soundtrack – you can help us choose songs that complement the theme and your child's personality. And we'll also include the 'funny moments' filmed on the day – the tantrums, the giggles and more.

Of course, every *kidzLife* video is as unique as your child. And you can enjoy it on DVD, your PC, your iPod and more. Either way, you can expect something that's quite unforgettable.

There are no ordinary moments in childhood. Every minute is magic. Every glance, every word is worth remembering. And years from now, a *kidzLife* film will transport you back to the moments that may have otherwise been forgotten.
